

DEFEATED RANDOLPH

Spaulding High Put Up a Fine
Game

AT RANDOLPH YESTERDAY

Fisher Pitched a Strong Game, Allowing
but Seven Hits and Striking Out
Twelve Men — Carswell
Batted Strongly.

Spaulding high school's base ball team played a strong game against Randolph high at Randolph yesterday and won out, after an interesting contest, by the score of 7 to 3. It was the best exhibition of the season by the Spaulding boys, who batted hard and did some pretty work in the field. The infield specially played like veterans at critical stages, three ambitious Randolph players being nailed at the plate on fine throws from infield hits. In the outfield Darling made a star catch of a fly ball, after a long run, thereby preventing a sure score.

Fisher outpitched his opponent, Bass, allowing but seven hits and striking out twelve men, besides pulling out of several tight places. Fisher swung his bat to good advantage also, getting three hits, as did Carswell. The latter's batting was particularly timely, his hits coming when they were needed. Kenefick got in two safe swats at the ball, while the other two of the ten hits went to Noel and Bruce. Moulton umpired the game satisfactorily.

The Spaulding team plays Bethel high at Bethel this afternoon.

HOLLAND VOTES \$280,000.

This Is to Buy a Site for the Peace
Palace.

The Hague, May 20.—The second chamber of the states general yesterday by a vote of 56 to 5 votes appropriated the sum of \$280,000 to purchase the ground on which to erect the palace of peace for which Andrew Carnegie gave \$1,500,000. The opposition contended that the other powers should co-operate in providing this sum, but the premier, Dr. Kuyper replied that the honor of the Netherlands and its gratitude to Mr. Carnegie demanded that the money to purchase the site be voted.

Taft Examines Two in Bowen-Loomis
Investigation.

Washington, May 20.—There was a brief discussion of the Bowen-Loomis controversy at the meeting of the cabinet yesterday. After the meeting, Secretary Taft said that no conclusion had been reached, but that he had examined two witnesses Thursday. These were Henry Willard Bean, formerly manager of the New York-Bermudez Asphalt company, and Senator Pastorsky Mora, formerly connected with the same company.

Back From Russia, He Will Not Talk
About Warship Contracts.

New York, May 20.—Charles M. Schwab, who is supposed to have been abroad to secure contracts from the Russian government for warships, was one of the passengers on the belated steamship Baltic, which arrived yesterday from Liverpool. He admitted that he had been in St. Petersburg, and conferred with the admiralty, but declined to go into details.

One rumor had it that Mr. Schwab had secured \$100,000,000 worth of contracts, but this seemed to be based on the following remark, which he made to a friend whom he met at the pier: "The finest ever; everything came my way." After refusing to tell whether he had talked with the czar about restoring Russia's navy, Mr. Schwab said that he had met John D. Rockefeller, Jr., while abroad and that the young man had complained of not feeling well.

"I told him," continued the steel man, "to brace up and have a good time, and let other people look after the saving of their souls for themselves for a while."

LA FOLLETTE BILL PASSED

Goes Through Both Branches
of Legislature.

THE GOVERNOR WILL SIGN

He Gains Virtually Every Point Desired

— An Important Step in the
Regulation of
Railroads.

Madison, Wis., May 20.—By a unanimous vote of the thirty-one senators present the substitute railroad rate bill introduced by the committee on railroads was passed at last night's session of the Senate, and will be sent to the Assembly for concurrence. This is the bill for which Governor La Follette has been fighting, and its passage by the Senate, indicates its certain passage in the Assembly. The measure provides for a commission of three members, to be appointed by the governor, with power to fix rates, their decision being subject to the courts, and present rates to stand till altered.

Governor La Follette will sign the bill and thus be free to accept the United States senatorship. The governor has gained practically every point he contended for. He gets a State railroad commission having power to fix rates. The Stalwarts, who held out against him so long, finally yielded to his demands, securing only the few concessions that enabled them to retreat gracefully. The last concession made by the administration that no rate fixed by the Commission shall go into effect for sixty days has been accepted by the Stalwarts.

Besides having power to fix rates, the new bill gives the Commission power to compel railroad companies to furnish adequate service to shippers. Cars must be furnished within reasonable time after application is made for the service. Rebates of all kinds, secret rates, or discriminative rates, are forbidden. The commodity rate is preserved. A strong provision is made in the bill to allow this class of rates. But the commodity rates must be open to all shippers alike; there must be no unfair discrimination in its application. On this the Commission law gives the railroad companies the same privileges they now enjoy, that of making rates, but the public carriers will be required by the new law to keep on file at all stations copies of their rates, which copies shall be accessible to the public. A copy of the rates also must be filed with the Commission. In addition to the local tariffs all joint tariffs, contracts and agreements with shippers are to be kept on file at railroad stations.

414 Names on the List.

The various liquor dealers in Burlington have on their hands a large list of men to whom liquor cannot be sold and it is a task to keep track of all those who are posted so that there will be no violations of the law.

The license commissioners have already sent a total of 414 names and that list is being constantly increased. The list includes three classes: Those who have been drunk, those who have been assisted by the towns in which they live and those who are posted at the request of some member of their family. The list of drunks includes 208 names and of that number 198 are Burlington men. The others are from Shelburne and Colchester. The list of paupers includes 200 names and of those 190 are from Burlington. There are but six who have been posted by their families.

NOT TO BUY ABROAD.

Canal Commission Will Merely Charter
Ships.

Washington, May 20.—The Isthmian canal commission will buy no ships abroad, according to a decision reached yesterday but will charter the vessels necessary for the needs of transportation until Congress has an opportunity to take action, and give the commission a definite policy on which to act.

If Congress at the next session fails to stipulate that the commission buy American material and ships only, then the commission will go abroad and buy wherever it can secure the necessary ships and materials cheapest.

In explanation of this decision, it is announced further that the canal commission, Secretary Taft and the president have no desire to take advantage of Congress by the existing circumstances, and that the commission is perfectly willing to suspend action relative to the purchase of ships until Congress has a chance.

The canal commission has had in view two 8,000-ton vessels which could be purchased abroad immediately. The necessity of having these ships and the impossibility of securing American bottoms caused the decision of a few days ago to buy foreign steamers. This plan has now been changed and vessels will only be chartered. Whether the chartered vessels will be foreign or American bottoms depends upon the prices asked.
